

Always Improving

CAPTAIN JACK

ID: L² 43/07 • BD: 10/08/06 • BW: 73# • Photographed 10/3/2007

Captain Jack has very complete **Total Balanced Performance Breeding** and his linebreeding and genetics are traceable for almost 45 years. **Captain Jack's** breeding was planned and he is certainly on the leading edge of our highest quality and performance standards. His **Total Balanced Performance Traits** have been documented.

Performance				EPD's					Ultrasound@310 Days			
BW	205	365	SC	BW	WW	YW	MT	TM	REA	Marbling	IMF	B.Fat
73	726	1279	36	0.5	17	31	8	17	13.9	3.68	0.28	

With eleven contemporary young bulls he had the highest weight-muscle index of 121.9. The average IMF of all 11 young bulls was 3.02. **"Jack Leads The Pack"**. On the same date 18 heifers had an average IMF of 3.41 and an average REA/cwt of 1.21.

We have been selecting and breeding for improvement in carcass traits in both our bulls and heifers for 15 years and the results are seen in our progeny.

Captain Jack is by **Captain Lucey** and our proven Synergy donor **Farrah Anna**. A true prepotent linebred young sire with ten high quality donor females in his pedigree.

Our **2009 Production Sale** will be held on **February 14, 2009** at L2 Ranch and we will feature several heifers bred to Captain Jack.
